

Maximize Efficiency & Minimize Risk

The Surveillance and Team Tactics class was designed specifically to address critical skills necessary for covert operations in a team setting.

Effective surveillance is an essential investigative tool that not only aids in gathering evidence but also plays a vital role in the successful prosecution of cases.

Surveillance & Team Tactics Training

Undercover investigations are not one-person assignments. Surveillance & Team Tactics Training focuses on strategies for covert assignments and equips officers with the skills needed to surveil, track and locate suspects while remaining undetected.

The training includes classroom segments and on-the-road vehicle surveillance operations that allow students to practice skills and techniques learned in the classroom. Students work as a team following multiple suspects in challenging scenarios.

Topics Covered

- Safety Considerations
- Behind-the-scenes intelligence gathering
- Utilizing surveillance camera data
- Covert vehicle surveillance techniques
- Static and dynamic surveillance methods
- Planning for the unexpected
- Surveillance mistakes to avoid
- Standardization of surveillance communications
- Working as a team during vehicle surveillance
